To all customers of Illuxtron International

## **Statement regarding the European REACH Regulation 1907/2006/EC and RoHS Directive 2011/65/EU**

Dear Customer,

Illuxtron International is following carefully the initiatives of the European Commission dealing with environmental and safety issues.

Illuxtron International is dedicated to serve her customers by providing products that are conform to the requirements of the REACH Regulation 1907/2006/EC (the "Regulation") and the RoHS Directive 2011/65/EU (the "Directive"), to the extent they apply to such products. Strict policies are being implemented into the production process of Illuxtron International to comply with the Regulation and the Directive.

### **REACH Regulation**

You may procure within the EEA/EU from Illuxtron International, lighting products falling within the definition of "article" under Article 3 of the Regulation. These products are not intended to release any substances as defined under said Regulation, under normal and reasonable foreseeable conditions of use. Thus, Article 7.1 of the REACH Regulation on registration of substances in articles is not applicable to the products.

### **RoHS Directive**

The vast majority of the products does not contain substances and for the few which do, it is not in quantities exceeding the authorized limits of the Directive.

The conformity with the Regulation and the Directive is established through a constant contact with suppliers of Illuxtron International to gather relevant data.

Illuxtron International communicates on product conformity to the Regulation, the Directive and on substances contained in the product only to the extent legally necessary as required according to Article 33.1 of the Regulation and the Directive.

No other information than what is strictly required under the Directive and the Regulation can be disclosed as the composition of the products is highly proprietary and confidential information which disclosure could detrimentally alter our intellectual property rights and our business.
